

Griffin Chure, PhD | Curriculum Vitae

Current as of October 28, 2023

He/Him/His
NSF Postdoctoral Research Fellow
Department of Biology
Stanford University
Stanford, CA, USA

ORCID: [0000-0002-2216-2057](https://orcid.org/0000-0002-2216-2057)
website: gchure.github.io
email: gchure@stanford.edu
GitHub: [@gchure](https://github.com/gchure)

Education

PhD. Biochemistry & Molecular Biophysics – California Institute of Technology, 2020

Thesis topic: The Molecular Biophysics of Physiological and Evolutionary Adaptation

Thesis adviser: Professor Rob Phillips

BSc. Chemistry – Biological Emphasis & Minor Physics, University of Utah, 2013

BSc. Biology – Cell & Molecular Emphasis (Honors), University of Utah, 2013

Thesis topic: The Biochemical Assembly of the Bacterial Flagellar Motor

Thesis adviser: Professor David F. Blair

ASc. General Studies, Utah State University, 2009

Professional Employment

January 2021 – Present: NSF Postdoctoral Research Fellow – Department of Biology, Stanford University, Stanford, CA, USA.

Supervisor: Asst. Prof. Jonas Cremer.

July 2020 – December 2020: Postdoctoral Scholar – Department of Applied Physics and Materials Science, California Institute of Technology, Pasadena, CA, USA.

Supervisor: Prof. Rob Phillips.

September 2013 – June 2020: Graduate Student – Division of Biology and Biological Engineering, California Institute of Technology, Pasadena, CA, USA.

Supervisor: Prof. Rob Phillips.

January 2010 – May 2013: Research assistant, Department of Biology, University of Utah, Salt Lake City, UT, USA.

Supervisor: Prof. David F. Blair.

Conference Presentations

8. **Griffin Chure**, Roshali T. de Silva, and Jonas Cremer. “A Preservation of Macromolecular Densities Defines Cell Width in *Escherichia coli*.” Oral Presentation at the Physics of Life autumn conference at the Chan-Zuckerberg Biohub (San Francisco, CA, USA), Oct. 2023.
7. **Griffin Chure**, Roshali T. de Silva, and Jonas Cremer. “A Preservation of Macromolecular Densities Defines Cell Width in *Escherichia coli*.” Oral Presentation at the American Physical Society March Meeting (Las Vegas, NV, USA), 2023.
6. **Griffin Chure**, Roshali T. de Silva, and Jonas Cremer. “Hail to the Flux: or the Optimal Regulation of Cellular Resources Beyond Steady State” Oral Presentation at the Physics of Life winter conference at the Chan-Zuckerburg Biohub (San Francisco, CA, USA), Jan. 2023.
5. **Griffin Chure** and Jonas Cremer. “Analytical Descriptions of Fundamental Constraints in Protein Synthesis and Microbial Growth.” Oral Presentation at the American Physical Society March Meeting (Chicago, IL, USA), 2022.
4. **Griffin Chure** and Rob Phillips. “The Molecular Biophysics of Adaptation”. Poster Presentation at the Biophysical Society Annual Meeting (San Diego, CA), 2020. doi: 10.1016/j.bpj.2019.11.2983
3. **Griffin Chure**. “The Energetics of Molecular Adaptation”. Oral Presentation at the summer course “From Molecular Basis to Predictability and Control of Evolution” at NORDITA (Stockholm, Sweden), 2019.
2. **Griffin Chure**, Manuel Razo-Mejia, Stephanie L. Barnes, Nathan M. Belliveau, Tal Einav, Mitch Lewis, and Rob Phillips. “Mutations, Epistasis, and Allostery from a thermodynamic perspective: A predictive theory for transcriptional regulatory networks.” Poster presentation at American Society of Cell Biology (San Diego, CA, USA) 2018. Abstract Number P3369
1. **Griffin Chure**, Manuel Razo-Mejia, Stephanie L. Barnes, Nathan M. Belliveau, Tal Einav, Mitch Lewis, and Rob Phillips. “A Predictive Theory of Allosteric Regulation in Transcription.” Poster presentation at the American Physical Society March Meeting (Los Angeles, CA, USA), 2018. [Online abstract](#)

Invited Talks

8. “How To Live Forever: Recipes for Reproducibility in the Digital Age.” Invited Lecture for a Reproducibility Workshop at UC Berkeley, Summer 2023.
7. “On Fundamental Limits, Degenerate Dimensions, and Serendipitous Consequence in Rapid Cellular Growth.” Invited Seminar at the Chan-Zuckerberg Biohub, 2023
6. “The Anthroponumbers: Building Quantitative Literacy for a Human Dominated Planet.” Invited lecture for Stanford Course ILAC 105: Climate Change and Latin American Naturecultures, 2023
5. “Hail to the Flux: How An Optimal Allocation of Resources Dictates Microbial Growth” Invited talk at the Cell Size and Growth online seminar series, 2022
4. “How To Live Forever or: How To Make Your Science At Least Outlive You.” Invited Seminar at the New Science Foundation, 2022

3. "Boilerplating Reproducible Research in the Era of Digital Everything." Stanford University Ecology & Evolution Lunch Seminar, 2022
2. "The Anthropocene by the Numbers." Invited Speaker at the Carnegie Institute Department of Global Ecology Lunch Seminar Series, 2021.
1. "How To Live Forever or: How To Make Your Science At Least Outlive You." Invited talk for BEBi103a: Data Analysis in the Biological Sciences at the California Institute of Technology. 2020 & 2021

Academic Honors and Fellowships

Stanford University (2021 – present):

- National Science Foundation – Postdoctoral Research Fellowship in Biology (\$230,000 USD, January 2021 – December 2023)

California Institute of Technology (2013 – 2020):

- National Institutes of Health – Molecular Biology Training Grant (2014 – 2016)
- Amgen – Research Fellowship (2015)
- National Science Foundation – Graduate Research Fellowship Honorable Mention (2015)

University of Utah (2009 – 2013):

- Honors at Entrance Scholarship (2009 – 2013)
- Robert C. Byrd Scholarship (2009 – 2011)
- New Century Scholarship (2009 – 2013)

Teaching

Stanford University

- Reproducible Research for the Modern Biologist: A Hands-On Approach to the Collection, Analysis, and Collaborative Use of Biological Data (with Jonas Cremer) – Course Instructor – 2023

California Institute of Technology

- The Great Human Experiment by the Numbers (with Rob Phillips) – Teaching Assistant – 2020
 - Responsibilities included course development, direct instruction, and mentorship for research projects.
 - Mixed enrollment of graduate and undergraduate students.
- Evolution (with Rob Phillips and Victoria Orphan) – Teaching Assistant – 2020
 - Responsibilities included course development and direct instruction.
 - Undergraduate student enrollment.
- Physical Biology of the Cell (with Justin Bois) – Teaching Assistant – 2018
 - Responsibilities included direct instruction and grading.
 - Mixed enrollment of graduate and undergraduate students.
- Physical Biology Bootcamp (with Rob Phillips) – Optics TA – 2017, 2018, 2019
 - Responsibilities included hands-on instruction of practical optics and ground-up construction of optical tweezers, line-scan confocal, and TIRF microscopes.
 - Enrollment exclusively incoming graduate students.
- Bi1: Principles of Biology (with Rob Phillips) – Head TA – 2017

- Responsibilities included development of course material, direct instruction, logistical coordination of large TA team, and reporting of final grades.
- Enrollment exclusively undergraduate students.
- Data Analysis in the Biological Sciences (with Justin Bois) – TA – 2015, 2016
 - Responsibilities included course development, grading of complex research assignments, and direct instruction.
 - Mixed enrollment of undergraduates, graduate students, and auditing postdocs.
- Programming for the Biological Sciences (with Justin Bois) – TA – 2016
 - Responsibilities included course development, direct instruction, and on-the-fly troubleshooting.
 - Mixed enrollment by graduate students and postdocs.
- Bi1x: The Great Ideas of Biology (with Justin Bois) – Head TA – 2014, 2015
 - Responsibilities included development of course material, organization and preparation of laboratory experiments, direct instruction, grading, and maintenance of research grade microscopy resources.
 - Enrollment exclusively undergraduate students.

Extramural

Unless otherwise noted, courses were mixed enrollment of graduate students and postdocs.

- CSHL (Cold Spring Harbor, NY, USA) Physical Biology of the Cell – Computation Instructor – 2023, 2015
- IBDM (Marseille, FR) Cell Biology by the Numbers – Programming TA – 2018
- MBL (Woods Hole, MA, USA) Physical Biology of the Cell – Optics TA – 2018
- MBL (Woods Hole, MA, USA) Physiology Course – MATLAB Instructor (with James Boedicker) – 2017
- MBL (Woods Hole, MA, USA) Physiology Course – Research TA – 2015, 2016, 2017, 2018
- GIST (Gwangju, PRK) Physical Biology of the Cell – Undergraduate Students – Programming TA – 2016, 2017
- KITP (Santa Barbara, CA, USA) Evolutionary Cell Biology – Research and Programming TA – 2015

University of Utah

- Advanced Biochemistry Lab (with David Goldenberg) – Undergraduates – TA (Grading, Lab Organization, & Instruction) 2013
- Principles of Genetics (with J.S. Parkinson) – Undergraduates – TA (Instruction, Grading, & Exam Proctoring) *Sp. 2012, Fa. 2012*
- Biosciences Research Bootcamp (with Rosemary Gray) – Undergraduates – TA (Lab Organization & Instruction) 2010
- Introduction to Biology (with Tanya Vickers) – Undergraduates – TA (Instruction, Grading, & Exam Proctoring) 2010

Mentorship

- Direct supervision and training of 10 rotation graduate students (7 at Caltech, 3 at Stanford)
- Direct supervision and training of 5 undergraduate researchers (2 at University of Utah, 3 at Caltech)

Service & Leadership

- Stanford Small Science Groups – Research Advisor – *Fall 2023*
- CZ Biohub Physics of Life Conference – Scientific Organizing Committee Member – *Winter and Fall 2023*
- ENVISION by WiSTEM International Science Competition – Proposal Judge – 2022, 2023
- Biochemistry & Molecular Biophysics Graduate Student Council – Co-chair – 2015-2018
- Caltech RISE High School Mentoring Program – Biology & Physics Tutor – 2015-2016
- Caltech SURF – Research Mentor – 2015
- Caltech SURF – Presentation Judge – 2014
